

GoFundMe withdrawal and payout record

Help Us Buy Old State Saloon and Turn It Into a Gay Bar
Organizer: Montgomery Kuykendall

GoFundMe confirms: \$0.00 paid out.

After verifying the organizer and reviewing the account, GoFundMe Customer Care wrote that no transfer has been initiated and the funds have not yet been transferred. GoFundMe support explicitly confirmed the total amount paid is \$0.00 and reports an outstanding balance of \$8,919.08.

The support confirmation is the strongest evidence.

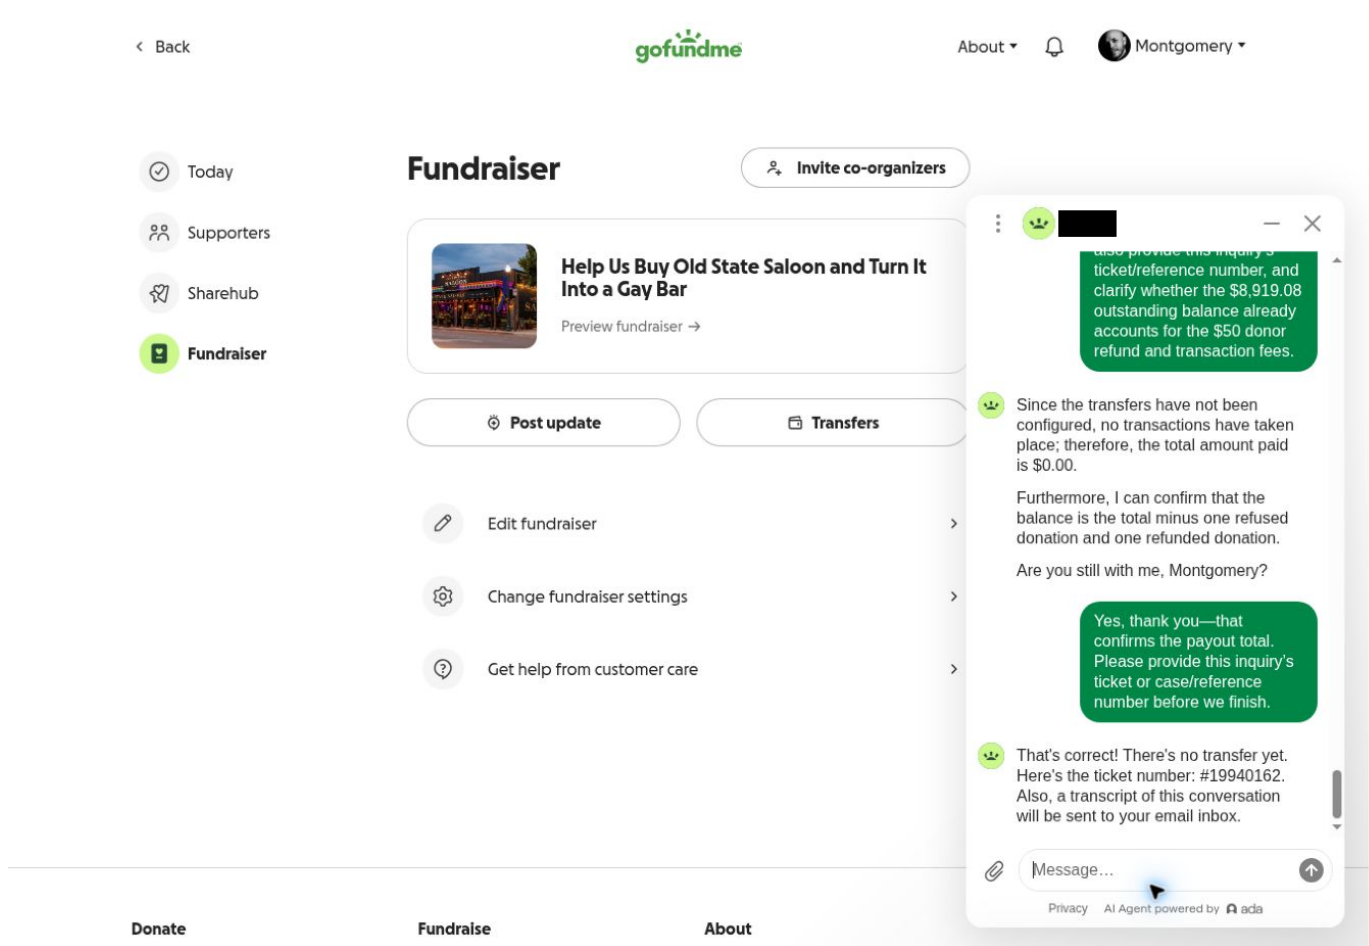

The written finding responds to a request covering the fundraiser from its creation on August 21, 2026. The dashboard itself exposes a setup screen, not an Activity or Breakdown ledger. A separate itemized payout statement has not been provided.

Financial category	What the available records establish
Donations raised	\$9,255 displayed on the organizer dashboard. This is not a bank-payout total or a verified available balance.
Donor refunds	\$50 refund issued, according to GoFundMe's October 10, 8:17 PM MDT email. Receipt by the donor is not independently verified.
Funds remaining	\$8,919.08 outstanding, confirmed by GoFundMe support on October 12. The dashboard did not display this amount.
Organizer / other recipient payouts	\$0.00 total paid, explicitly confirmed by GoFundMe support. No transfer has been initiated. A separate itemized ledger or scheduling breakdown was not supplied.

Official support inquiry: ticket #19940162. GoFundMe support supplied written \$0.00 payout and outstanding-balance findings. An official chat transcript email has been preserved.

Evidence: original email files and headers, authenticated webpage captures, and the support submission. This document is a compiled evidence review, not a statement issued by GoFundMe.

\$0.00 total paid

GoFundMe Customer Care (staff name redacted) | October 12, 2026

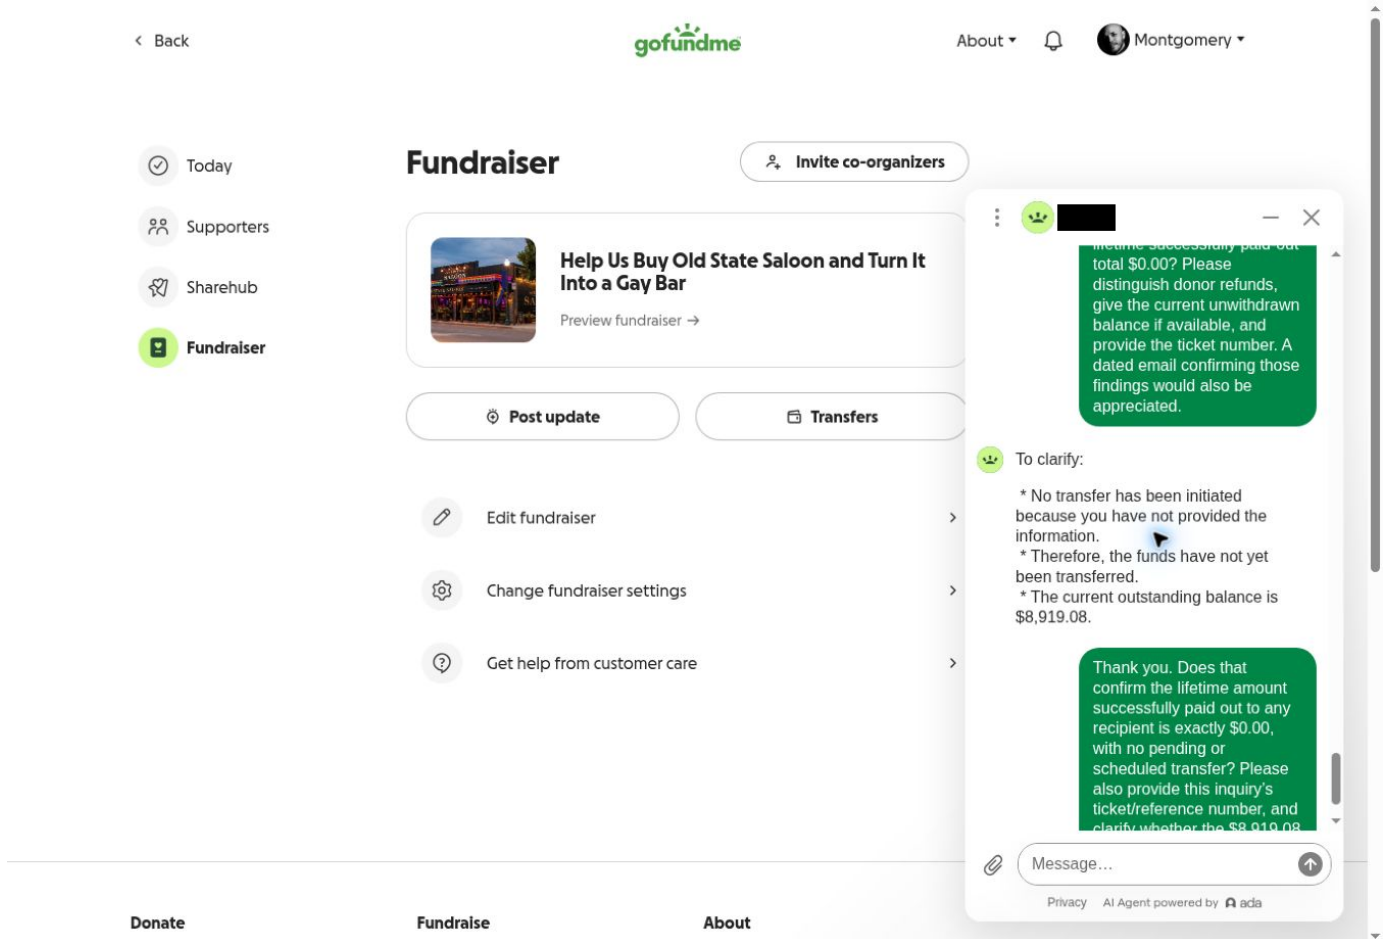

"Since the transfers have not been configured, no transactions have taken place; therefore, the total amount paid is \$0.00."

"Furthermore, I can confirm that the balance is the total minus one refused donation and one refunded donation."

This response followed the explicit question about lifetime payments to any recipient. The refused donation amount and transaction-fee amounts were not provided. The separate \$50 refund notice is preserved.

Original screenshot captured Oct 12, 2026, 10:01:00 AM MDT. Source: authenticated organizer support chat. Ticket #19940162 is visible. Only the staff name is obscured; other pixels are unchanged.

Written no-transfer confirmation

GoFundMe Customer Care (staff name redacted) | October 12, 2026

"No transfer has been initiated because you have not provided the information."

"Therefore, the funds have not yet been transferred."

"The current outstanding balance is \$8,919.08."

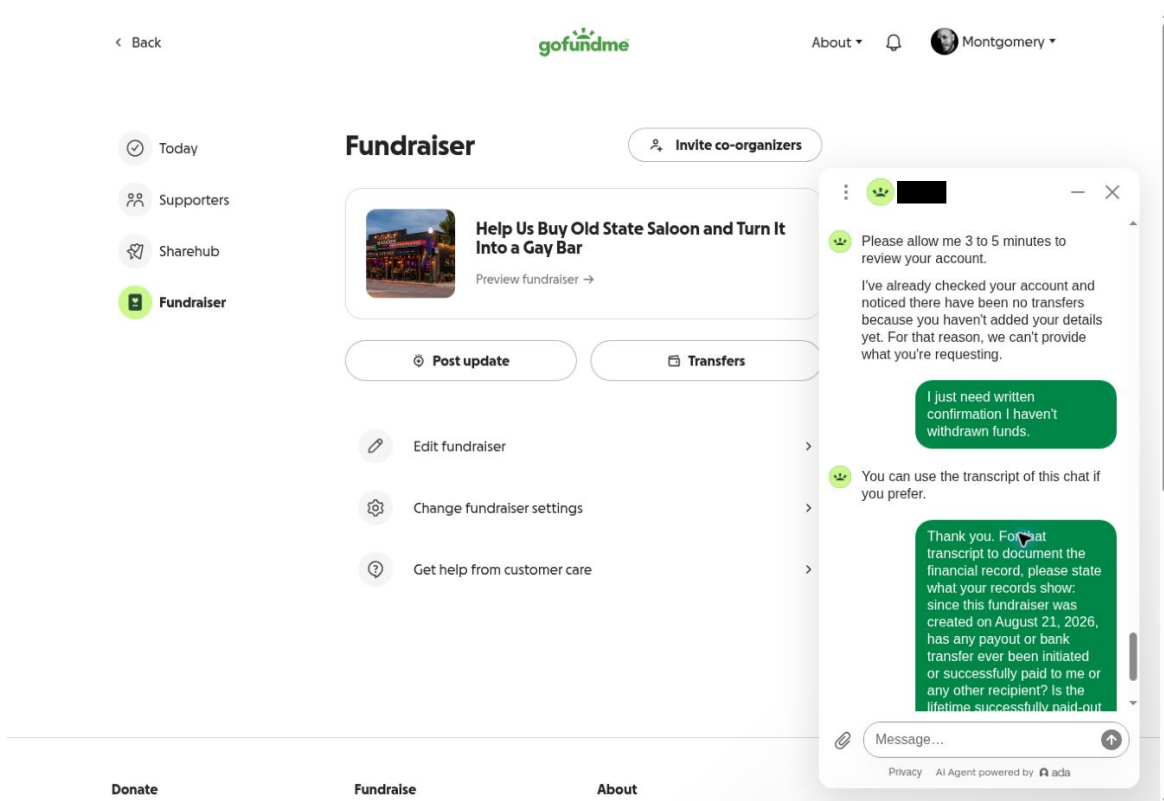

Captured Oct 12, 2026, 9:47:35 AM MDT. Source: authenticated organizer customer-care chat. The staff name is redacted. The public ZIP includes this redacted image; the original remains private.

Account review and provenance

I've already checked your account and noticed there have been no transfers because you haven't added your details yet. For that reason, we can't provide what you're requesting.

The specialist then wrote: "You can use the transcript of this chat if you prefer."

The attached support screenshot preserves these sentences and the fundraiser identity together. The statement about inability to provide the requested material is preserved in context; it is not omitted. No standalone transaction-history certificate was issued.

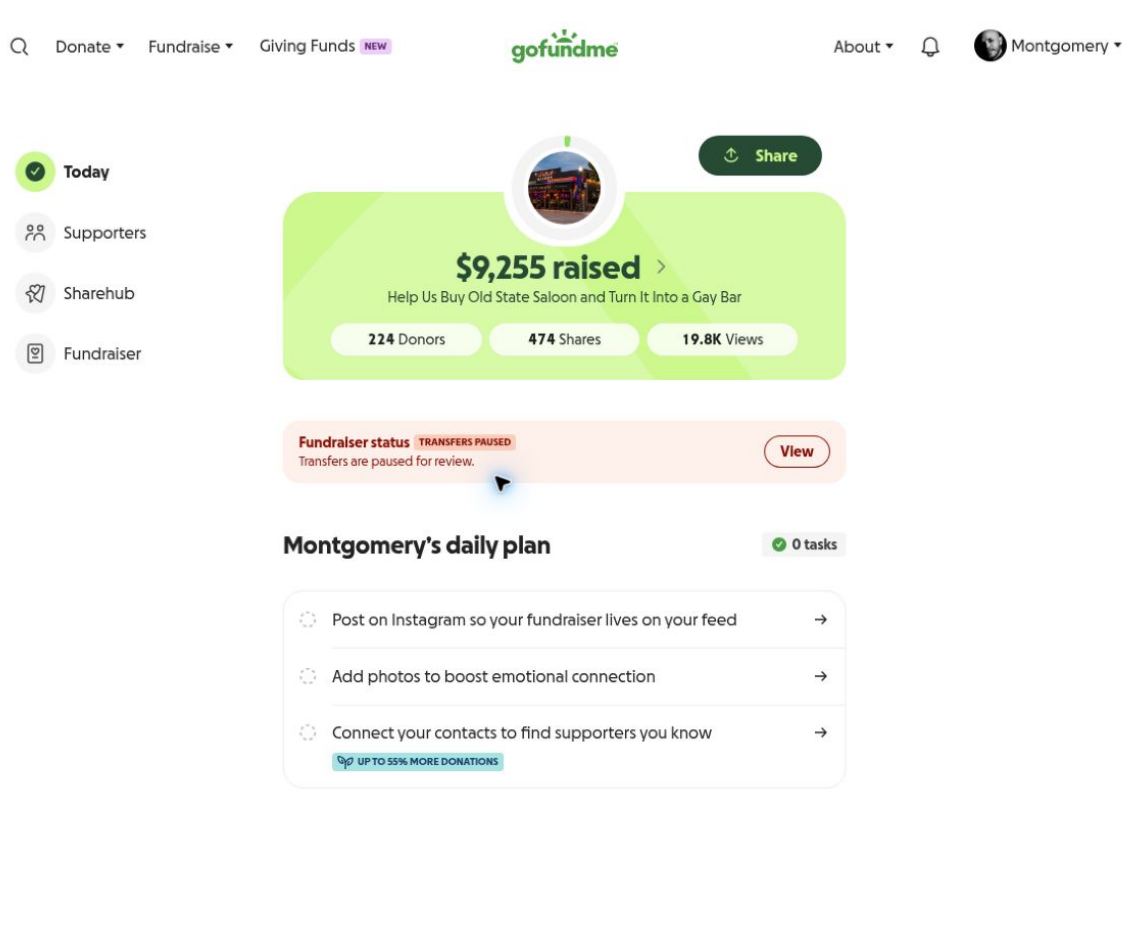

Official transcript export

The transcript was emailed by Ada <notifications@ada.support>, the vendor operating the chat embedded in GoFundMe customer care. It is a vendor-delivered official chat export, not an email directly authored by the support specialist.

Latest original transcript email Date: Mon, 12 Oct 2026 15:59:57 +0000 (UTC). Message-ID: <_f4txZ39TZyrh3N1qLNW2Q@geopod-ismtpd-86>. This export includes the \$0.00 total paid, \$8,919.08 balance and ticket #19940162. The public text copy redacts staff names, the organizer email and verification codes.

Fundraiser identity and status

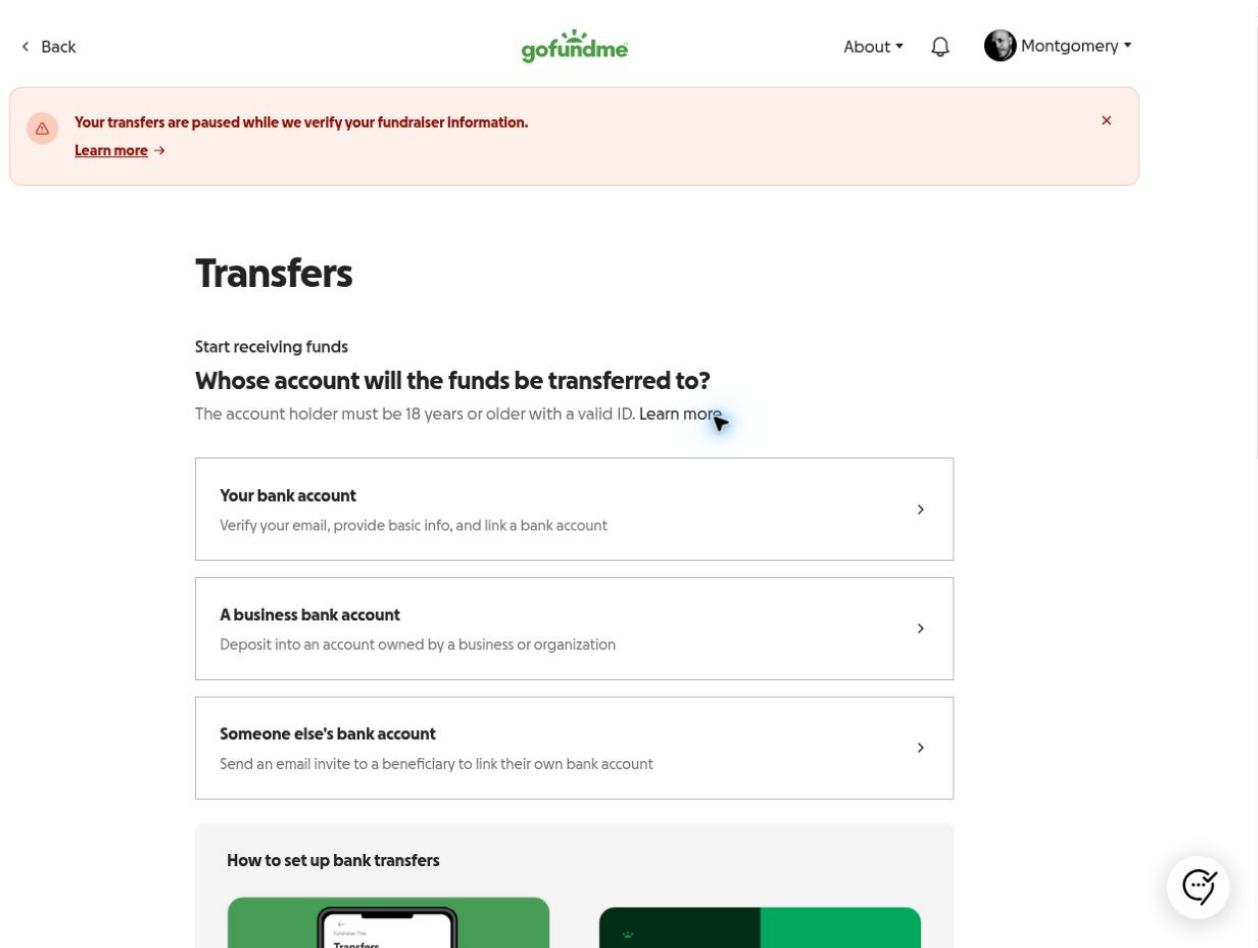

Original screenshot captured Oct 12, 2026, 9:15:18 AM MDT.

The dashboard identifies the fundraiser, displays \$9,255 raised and states "TRANSFERS PAUSED" / "Transfers are paused for review." The raised amount does not establish how much has been paid out.

Source: <https://www.gofundme.com/manage/help-us-buy-old-state-saloon-and-turn-it-into-a-gay-bar>

Navigation captured: organizer dashboard > Fundraiser > Transfers. The additional navigation screenshot is included in the public ZIP.

Paused transfers; setup screen

Original screenshot captured Oct 12, 2026, 9:16:32 AM MDT.

"Your transfers are paused while we verify your fundraiser information."

The page asks whose account funds will be transferred to and offers recipient setup choices. The complete page was inspected: Activity, Breakdown, payout totals and historical transfer entries were not exposed. No setup choice was selected.

GoFundMe's exact language

The passages below are transcribed from the original .eml messages. Line wrapping is normalized. These are document excerpts, not screenshots of an email interface. Recipient contact details and tracking links are omitted.

October 12, 2026 | 7:43:39 AM MDT

From: GoFundMe <support@messages.gofundme.com>
Subject: Action Required: Set up withdrawals

"Currently, you have a balance that has not been withdrawn."

"If withdrawals are not set up before April 18, 2027, all donations to your GoFundMe fundraiser will be refunded."

The same email also explains: "Your fundraiser's 'Total Amount Raised' meter will stay the same and you can continue accepting donations for as long as you'd like." Quotation marks around Total Amount Raised are normalized for typography.

October 12, 2026 | 8:11:53 AM MDT

From: GoFundMe <support@messages.gofundme.com>
Subject: Action Required: Payouts Paused - Submit Further Verification

"Payouts have been paused temporarily. In order to continue receiving payouts, our payment processors will need more information to verify you. Payouts will continue to be paused until you submit this information."

"If you do not submit further verification by April 18, 2027, your remaining donations may be refunded."

The wording "continue receiving payouts" is the wording of the notice; it is not itself a transaction record demonstrating an earlier payment. Likewise, an unwithdrawn balance does not establish a lifetime zero-payout total.

Original headers in both messages report SPF, DKIM and DMARC passes recorded by Gmail on receipt. The original messages and all headers are retained privately; no new cryptographic re-verification is claimed.

Refunds and remaining detail

A donor refund is separate from a payout.

GoFundMe's refund notice reports a \$50 refund issued for this fundraiser. Its Date header is October 11, 2026, 02:17:57 UTC, which is October 10, 2026, 8:17:57 PM MDT. The donor's name is withheld from the public package.

"The donation amount has been removed from your account and will be returned to the donor within 3-7 business days."

This establishes a refund notice, not money paid to the organizer. It is not represented here as an exhaustive lifetime refund total.

Date / period	Primary-source evidence retained
August 21, 2026	Launch confirmation email identifies the published fundraiser.
August 22 - October 12	18 withdrawal-setup notices and 18 payout-pause notices, generally every three days, preserved with complete headers. Each establishes its dated message, not uninterrupted status between notices.
October 10 (MDT)	One \$50 donor-refund notice.
October 12	Authenticated dashboard and Transfers captures; complete request submitted; GoFundMe support confirmed no transfers and an \$8,919.08 outstanding balance.

Requested and answered

The request asked for lifetime payout history, all recipients, and refunds separately. GoFundMe support confirmed no initiated transfers, no transferred funds, and \$8,919.08 outstanding. GoFundMe support subsequently confirmed the total amount paid is \$0.00 and said the balance is the total minus one refused donation and one refunded donation. The refused donation amount and a transaction-fee breakdown were not supplied. No separate pending/scheduled ledger was available.

Support reference: #19940162. Full request verified sent Oct 12, 2026, 9:23:55 AM MDT. The written no-transfer finding is preserved. A separate itemized ledger has not been provided.

Capture method: authentic browser screenshots with source URLs and collector timestamps preserved separately. No screen-recording interface was available. Only staff-name pixels are obscured in support images. Figures and financial text are unchanged.

Source identifiers

The private archive preserves the original files. SHA-256 values identify the preserved bytes for later comparison; hashes do not independently authenticate the truth of an account balance. Support images redact only the staff name. Other dashboard captures retain original bytes. Capture_Provenance.json identifies originals, derivatives and redaction coordinates.

Public statement

GoFundMe reviewed my fundraiser account and confirmed in writing on October 12, 2026 that no transfer has been initiated and the total amount paid out is \$0.00. GoFundMe reports an outstanding balance of \$8,919.08. I have not received fundraiser payouts. I'm sharing the support confirmation and dashboard evidence. A separate \$50 donor refund is documented; that was a return to a donor, not a payout to me.

Prepared for Montgomery Kuykendall. Public copy withholds staff and donor names, personal email addresses, banking details and sign-in values. The private archive is intended for the organizer and authorized advisers.
